

Application for approving an auditor in accordance to the certification schemes REDcert-EU / REDcert² / REDcert²-Chemistry

- **Each REDcert certification body applies for the approval of its own REDcert auditors.** For that, the REDcert contact person of the respective certification body submits the application as well as relevant documents, proofing the respective requirements, electronically to REDcert.
- The certification body is responsible for the content of the application and the supporting documents as well as for the preliminary verification regarding the accuracy of the data / information transmitted to REDcert.
- All information is handled confidentially and is only used to check the qualification as an auditor.
- Please **use this template only**, to apply for the approval of REDcert auditors. Other templates will not be accepted by REDcert.
- Please **do not change** the information request or the layout of the application! However, additional lines can be inserted to provide information.
