

Self-declaration

for point of origins of off gases and liquid or solid waste streams

Point of origin: _____
 Street: _____
 Postal code, city: _____
 Country: _____

The material stream delivered is either waste processing gas, off gas or a liquid or solid waste stream that was not deliberately produced. The material is not suitable for material recovery in accordance with Article 4 of Directive 2008/98/EC.

Recipient: _____
 Contract or contract number: _____

Material type waste processing or exhaust gas | pre-consumer waste | post-consumer waste

Amount of exhaust gas, or _____ tonnes per year

Amount of liquid waste/solid waste _____ tonnes per year

(Please check the items that apply.)

1	<input type="checkbox"/> The material stream is waste processing gas or exhaust gas of non-renewable origin which is produced as an unavoidable and unintentional consequence of the production process in the installation. Existing use or fate: _____
2	<input type="checkbox"/> The material stream is a liquid waste stream of non-renewable origin which is not suitable for material recovery in accordance with Article 4 of Directive 2008/98/EC. Existing use or fate: _____
3	<input type="checkbox"/> The material stream is a solid waste stream of non-renewable origin which is not suitable for material recovery in accordance with Article 4 of Directive 2008/98/EC. Existing use or fate: _____
4	<input type="checkbox"/> The material stream is a liquid waste stream that is a mixture of non-renewable and renewable materials which are not suitable for material recovery in accordance with Article 4 of Directive 2008/98/EC. Existing use or fate: (non-renewable)
	<input type="checkbox"/> The renewable part of the material stream is biomass that complies with Revised Directive (EU) 2018/2001. The share of biomass that complies with Revised Directive (EU) 2018/2001 is about: _____ V.%
5	<input type="checkbox"/> The material stream is a solid waste stream that is a mixture of non-renewable and renewable materials which are not suitable for material recovery in accordance with Article 4 of Directive 2008/98/EC. Existing use or fate: (non-renewable)
	<input type="checkbox"/> The renewable part of the material stream is biomass that complies with Revised Directive (EU) 2018/2001. The share of biomass that complies with Revised Directive (EU) 2018/2001 is approximately: _____ wt.%
4	<input type="checkbox"/> The data relevant for the calculation of e_i is provided to the fuel producer and, upon request, to the certification body approved by REDcert for validation.

Note: With this declaration, the point of origin acknowledges that auditors of the accredited certification bodies may verify whether the relevant requirements stipulated in Revised Directive (EU) 2018/2001 have been satisfied. It should be noted that the auditors of the certification bodies may be accompanied by a competent authority who monitor their activities. In addition, REDcert employees as well as auditors recognised by REDcert must be granted the right to conduct a special audit or a witness audit. Furthermore, the point of origin acknowledges that his name and address will be registered in the mandatory Union database (UDB) for the purpose of traceability of feedstocks.
